

Introducing Vavee Enterprises

Here at Vavee Enterprises, we conduct what we call Wellness Accounting.

Led by principal Veronika Andersson (CPA), Veronika has over 20 years of experience working with individuals, micro, small and medium sized businesses in all stages of their life cycle. Veronika founded Vavee in 2012 when she saw a serious lack in the personal contact and servicing of clients by their accountants. The clients were missing out on access to knowledge, information and support, that could help them grow their prosperity exponentially!

Vavee Enterprises specialises in filling this gap by providing professional services to clients in all aspects of their individual wealth creation and business opportunities.

Realise your prosperity potential

What makes Vavee unique?

Your accountant has the potential to be a very useful and important team member in creating and growing your prosperity for you individually, as well as for your business.

One of the unique ways in which Vavee achieves this is through monthly meetings and regularly scheduled contact. Discussions during meetings may include:

Vision: We can help you identify the vision and values of your personal and business life.

Strategy: Implement a financial strategy and goal plan to realise your vision.

Accountability: Stay on track through task capture, assignment and review at each meeting.

Planning: Preparation of budgets and reporting for use in financial analysis and decision making.

Connection: We connect you to other experts and specialists in the Vavee community.

Attending to these tasks makes the mundane aspects of tax and accounting a very minor inconvenience, rather than a dark heavy cloud that causes so much angst and procrastination for clients of other accounting firms.

If you need a partner in business, rather than just a tax agent, make Vavee Enterprises your first choice.

Veronika has been our Accountant of choice for well over 20 years. We receive prompt individual attention and advice that is always in our best interests. We highly recommend her services.

Len Mijat,
Roklen Investments

I am not an expert in running a business, and having Veronika mentoring me and my partner has been an essential part of our success!

Alisson Sandi,
Brazuka Dance
